## 105. OBSOLETE FRAME RELAY SERVICE

### 105.1 SINGLE POINT OF CONTACT

#### A. Description

Through the Frame Relay Service (FRS) optional Single Point of Contact (SPOC) service plan, the Company coordinates the ordering, installation and repair of all of the customer's FRS network links[1] and Permanent Virtual Connections (PVCs) that are provided by service providers other than the Company. The plan requires the customer to sign a SPOC letter of agency, which authorizes the Company to perform such services on behalf of the customer.

#### B. Rate Regulations

A nonrecurring charge and a monthly rate apply per other company provided Frame Relay network link or PVC included in a SPOC service plan. These rates and charges are in addition to the rates and charges which may be associated with the provision or use of a network link or PVC provided by another service provider.

#### C. Rates And Charges

	USOC	NONRECURRING CHARGE	MONTHLY RATE
• Per SPOC network link	SPCNL	\$78.00	\$25.00
• Per SPOC 1st PVC	SPC1P	25.00	8.00
• Per each additional SPOC PVC	SPCAP	9.00	3.00

[1] A network link is a physical facility which provides a transmission path between data communications networks or between data networks and end users.
