105.5.1 PUBLIC TELEPHONE SERVICE

A. Description

A public telephone provides pay telephone service to the public and is installed at the Company's initiative or option. The Company chooses or accepts the location as suitable or necessary for furnishing service to the general public.

B. Terms and Conditions

1. Public Service must be so located as to be accessible to those for whose use they are intended.
2. Public Service is furnished at the Company's initiative or at its option at a location accessible to the public, where warranted by public necessity or by the revenue to be received, and where the occupant of the premises agrees to permit the installation of public service in accordance with terms agreed upon between the occupant and the Company.
3. The telephone instrument will be removed or relocated when, in the opinion of the Company, the telephone instrument or its contents may be subjected to theft or damage.

C. Rates and Charges

1. Message Charges

	CHARGE
• Local Messages, each[1]	\$0.50
• Inmate Local Messages, each[1]	0.70

105.5.2 SEMIPUBLIC TELEPHONE SERVICE

A. Description

Semipublic Telephone Service provides pay telephone service to the customer who wishes to make service available for combined customer and public use.

B. Terms and Conditions

1. The location of the semipublic main telephone will be determined by the Company. The telephone will be removed or relocated when, in the opinion of the Company, the telephone or its contents may be subject to theft or damage.
2. The customer will reimburse the Company for any loss of or damage to the pay telephone instrument or enclosure from any source, including, but not limited to, theft of the collecting device or loss or damage due to fire or flood. See 3., following.
3. The Company has the right to require the redemption by the customer of all slugs and spurious, mutilated or foreign coins deposited in the coin receptacle at the value for which they were evidently deposited. The Company may disconnect and remove the pay telephone and any extension equipment if the customer refuses to honor these arrangements.
4. Semipublic Telephone Service is not designed to supplant regular telephone service and, as such, will be provided only upon request and where there is an apparent need for the service to be used by the public as well as the customer.
5. Semipublic Telephone Service will be furnished only on an individual line basis.
6. Semipublic Telephone Service is not provided on an FX basis nor in connection with combination access line service.

105.5.2 SEMIPUBLIC TELEPHONE SERVICE

B. Terms and Conditions (Cont'd)

7. Semipublic Telephone Service will be considered the same as business service for directory listing purposes. As such, the Semipublic Telephone Service rates and charges include one listing. Additional listings will be furnished at regular rates and charges.
8. The Time and Material charge, nonrecurring and/or installation charges will not apply to moves and/or changes of semipublic telephones where, in the opinion of the Company, such moves or changes are primarily to improve the service rendered to the public.
9. The minimum contract period is one month.
10. The customer will be required to aid the public in the use of this service.
11. The Company will furnish and display, at the customer's request, such of its standard signs as are necessary to properly advertise the telephone. At locations where it is necessary to secure a permit and pay a fee for the privilege of placing a sign, the customer will be required to secure the permit and pay the fee.
12. Enclosures and other items of supplemental equipment will be provided in accordance with the rates, charges, terms and conditions specified in C., following.
13. Customers must provide to Company personnel ready access to the telephone equipment during normal working hours. Failure to do so could result in a loss of semipublic service.
14. The Company may apply, at no charge, additional ancillary equipment to the semipublic telephone for the purpose of enhancing or protecting service. Equipment such as an amplified handset, loud button, slug rejection apparatus, and informational stickers are examples of this type of equipment.
15. Toll Calling Plans are not available for Semipublic Telephone Service.

105.5.3 COINLESS PUBLIC TELEPHONE SERVICE

A. Description

Coinless Public Telephone Service is furnished at the Company's initiative or at its option when warranted for the purpose of satisfying the demand for optional billing of outgoing messages. Coinless Public Telephone Service offers the following options for the billing of outgoing messages: charging to a third number; a Company calling card; or collect. In certain locations, calls may be billed on a collect basis only.

B. Terms and Conditions

1. Coinless Public Telephone Service may be provided on the premises of city, county, State and Federal prisons where potential usage by inmates participating in authorized telephoning programs warrants establishing the service. Such telephones will be provided for the purpose of originating long distance collect messages to numbers in the United States, Canada and Mexico or originating local collect messages. All other traffic, including calls to Company numbers, IN-WATS numbers, and public emergency service numbers such as 911, will be blocked.
2. Where required by law, inmates will be allowed to make non-collect, no-charge local calls to their designated legal council, attorney or social agency as defined by the institution. This option will only be provided on accounts that fully recover costs based on the Company's financial analysis.

C. Rates and Charges

Messages charges as specified in 105.5.1, preceding, apply to calls placed from coinless pay telephones. (T)

105.5.5 SEMIPUBLIC EXTENSION SERVICE

A. Description

Telephones for answering purposes may be furnished for use by the customer, but may not be equipped with coin collecting devices.

B. Terms and Conditions

1. As of November 30, 1983, customer premises equipment must be connected to the network via an Extended Network Interface.
2. Customer premises equipment which is directly connected in accordance with any Company tariffs and/or price lists prior to November 30, 1983, is considered grandfathered and not subject to this provision. Customer initiated moves, rearrangements, installation of new registered equipment or change of customer will revoke the grandfather status.
3. The Extended Network Interface must be requested by the customer and provided by the Company prior to the connection of any registered customer-premises equipment to a semipublic line.
4. The company has the right to terminate customer premises equipment connections to prevent harm to the network or to prevent fraud.
