13.1 MANAGED LONG DISTANCE (MLD)

A. General Description

Managed Long Distance (MLD) is a call management access service available to ICs. MLD provides timing and termination of long distance calls for the IC's use in providing 1+ direct dialed toll. Calls are routed through the Company's MLD Advanced Intelligent Network (AIN) platform for timing and voice prompts before being routed to the IC's tandem switch for call completion. The per-minute rate is in addition to all other applicable access charges.

B. Terms and Conditions

1. The Company undertakes to provide MLD only in those end offices that are suitably equipped.
2. The Primary Interexchange Carrier and Local Interexchange Carrier (PIC/LPIC) must be the same.
3. The IC's end user customers are provided a \$20.00 per month spending limit from the first to the end of each month.
4. MLD rates are applied on a per minute of use basis. Fractional minutes of use will be rounded up to the next full minute.

C. Rates and Charges
