5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Call Rejection

Allows a customer to establish and modify a list of telephone numbers that will enable the customer to reject call attempts originating from those telephone numbers. Any call attempts to the customer from these numbers will be prevented from terminating to the customer and will instead be connected to an announcement informing the caller that the call is not presently being accepted by the called party. A customer may also reject future calls from the most recent call received by dialing a code after completing the call.

(C)

(C)

Call Trace

Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a pay per use basis only. After receiving the call which is to be traced, the customer dials a code and the traced telephone number is automatically sent to the Company for future action. The customer originating the trace will not receive the traced telephone number. The results of the trace will be furnished only to legally constituted law enforcement agencies or authorities upon proper request by them. The Company is not liable for damages if, for any reason, the Call Trace attempt is not successful.

Call Transfer

Allows a customer to transfer an incoming call to a third party or add a third party to an existing call, forming a three party connection, and then to leave the connection without disconnecting the call.

NOTICE

THE INFORMATION CONTAINED IN THIS DOCUMENT IS SUBJECT TO CHANGE.

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Call Waiting

Call Waiting provides notification when a second incoming call is waiting on the line when the line is already in use. A brief tone alerts the subscriber that another call is waiting on the line. Successive depressions of the switchhook allow the party to transfer between calling parties.

(C)

(C)

(D)

(N)

Call Waiting Identification

Call Waiting Identification allows incoming calls waiting on the line to visually display on a Call Waiting Identification Display Unit and allows the called party to receive the caller's listed name and number information consistent with Caller Identification – Number or Caller Identification – Name and Number. Successive depressions of the switchhook allow the party to transfer between calling parties. Customers must subscribe to Caller Identification Number or Caller Identification Name and Number

(N)

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

CALLER ID WITH PRIVACY +

Provides a customer with Caller Identification - Name and Number functionality and, in addition, provides special handling for unidentified incoming calls and incoming calls marked "private".

Calls placed from a private or blocked telephone number will hear a series of prompts asking them to unblock their line or record their name for delivery to the called party. Callers placing a call from an unidentified number will be asked to record their name for delivery to the called party.

When the calling party records a name, the service will route the call to the customer and the Caller ID unit will display "PRIVACY +" which identifies that the call has a recorded name. The customer will also hear a distinctive ring unless they subscribe to Custom Ringing. If the customer answers the call with the "PRIVACY +" designation the recorded name will be announced and the customer may then choose between three options for handling the incoming call. They may accept the original call, they may choose not to accept the original call or if they subscribe to Voice Mail, they can direct the original call to their mailbox.

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Caller Identification - Name And Number

Provides for the delivery of the telephone number, including non-published and non-listed numbers, and name associated with the telephone line used by the calling party to place the call. The number and name delivered to the customer's Caller ID unit are those provided by the telephone network to the customer's serving central office and the database consulted by the Company to determine the name associated with that number, respectively. The Company, in its sole discretion, may abbreviate and modify name information for display purposes.

(C)

(C)

(D)

Caller Identification - Number

Provides for the delivery of the telephone number, including non-published and non-listed numbers, associated with the telephone line used by the calling party to place the call. The number delivered to the customer's Caller ID unit are those provided by the telephone network to the customer's serving central office

(C)

(D)

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Continuous Redial

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A tone alerts the customer when the called number becomes available. This service is available on a pay per use basis or a monthly subscription basis. A pay per use charge applies per activation regardless of whether the call is completed.

(C)
|
(C)
(M)

Dial Call Waiting

Dial Call Waiting functions interactively with Distinctive Alert, following. When a line equipped with Dial Call Waiting calls a line equipped with Distinctive Alert, the customer will hear either a distinctive ring when the line is not in use or a distinctive call waiting signal when the customer is using the called line.

(C)
|
(C)

Dial Lock

Dial Lock is a service that provides the ability to block outgoing calls. Through the use of an administrative password, a customer can determine what type of outgoing calls will be permitted from the line. Different blocking parameters can be established on a per line basis. This service will allow blocking to: all non-emergency local calls; all long distance and directory assistance calls; all international calls; all operator assisted calls; all toll free calls and all information services calls.

(M1)
|
(C)
|
(C)(M1)

A customer can create a list of up to twenty numbers that can be called regardless of the type of blocking that is in place. Customers may override the blocking at anytime.

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Directed Call Pick Up

(M)

Allows a customer to answer a call that is ringing to another line by dialing a preset access code and the telephone number of the line to be answered. Both the originating line and the line to be answered must be equipped with the feature.

(T)

Directed Call Pick Up With Barge-In

Allows a customer to answer a call that is ringing to another line, or has been answered by another line, by dialing a preset access code and the telephone number of the line to be answered. Both the originating line and the line to be answered must be equipped with the feature.

(T)

(T)

Distinctive Alert

Allows a customer to receive an audible Call Waiting tone or Distinctive Ringing signal from a line equipped with Dial Call Waiting. If the called line is idle, a Distinctive Ringing signal will be heard. If the called line is busy, the called line receives a Call Waiting tone.

Do Not Disturb

Allows a customer to set schedules to block incoming calls during designated times. These schedules automatically activate/deactivate the Do Not Disturb function. When the feature is activated, callers hear a customer selected greeting indicating that the customer is not available.

(C)

Customers who would like to have certain callers reach them when the service is activated may create a code for use by such callers.

(M1) Material moved to Page 107.

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Easy Access

Allows a customer to place a call to a predetermined telephone number by dialing an abbreviated two-digit code. The dialing code is *98.

(M)

(M)

Hot Line Service

Outgoing calls are automatically routed to a preprogrammed telephone number when the customer takes the phone off-hook. A line equipped with Hot Line cannot place outgoing calls to any number other than the preprogrammed number.

(C)

(C)

I-CALLED

I-CALLED allows for callers who encounter a “ring no answer” condition to record their name and telephone number for future delivery to the called party. The service provides a voice prompt for the caller to enter a touch-tone command. Once callers record their name and number, *I-CALLED* will attempt to deliver the information to the called party by calling the called party periodically for a predetermined number of days, or until the called party answers, whichever comes first. When the called party answers the *I-CALLED* call, the recorded information will be played through twice to ensure the called party hears the information. The called party will also have the opportunity to replay the message if needed. This service is billed to the calling party on a pay per use basis.

(T)

Last Call Return

Allows a customer to dial a code to receive an audio announcement of the telephone number, including non-published and non-listed numbers, of the last incoming call regardless if the call was answered or not. The number delivered by the announcement is the one provided by the telephone network to the customer’s serving central office. Numbers marked “Private” by the caller will not be announced. If a number is announced the customer will receive a prompt that may allow them to automatically place a return call however, the feature may not be able to place the return call even if the number is announced. If a returned call can be placed, and the called number is busy, it will be redialed for a limited period of time. When the called number becomes available a distinctive ring will alert the customer.

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Long Distance Alert

Long Distance Alert provides a distinctive ring and a distinctive call waiting tone for long distance calls. This service is offered only as an enhancement to Call Waiting and is provided at no additional charge.

NO SOLICITATION

Allows a customer to deter sales and telemarketing calls received by the customer. This is accomplished via a recorded message which informs the caller that the customer does not accept telephone solicitations, and asks solicitors to hang up and to place the called party on the solicitors "do-not-call" list. No Solicitation automatically screens calls between the hours of 8:00 A.M. until 9:00 P.M. daily (may be disabled by the customer at any time if desired). A caller may press one, or stay on the line to complete the call connection.

Priority Call

Allows a customer to establish and modify a list of up to fifteen callers' telephone numbers. When a call originates from one of the numbers on the list the customer will hear a distinctive ring. Incoming calls from numbers on the list that encounter a busy or don't answer condition will be treated like any other incoming call.

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

SECURITY SCREEN

Provides the customer with the ability to screen private and unidentified calls that are placed to their number. A customer who subscribes to *SECURITY SCREEN* must also subscribe to Caller Identification – Name and Number.

Callers placing a call from a private or blocked telephone number to a *SECURITY SCREEN* customer will hear a series of prompts asking them to unblock their line or enter a telephone number for delivery to the called party. Callers placing a call from an unidentified number will be asked to enter a telephone number for identification purposes. The *SECURITY SCREEN* customer will hear a distinctive ring if the calling party input the data passed unless they subscribe to Custom Ringing Service.

Unidentified callers will hear a message indicating that the person they are calling does not accept unidentified calls. The calling party will be told to hang up if they are a solicitor. All other callers will be asked to input the telephone number they are calling from. Once the calling party unblocks their line or enters a telephone number, they will be connected directly to the *SECURITY SCREEN* customer. The Caller ID unit will display one of the following:

- If the call is private or unavailable and the caller enters a ten-digit number from within Qwest's territory that is the same as the calling number, the display will carry the telephone number and the caller's name with an (*).
- If the call is private or unavailable and the caller enters a private ten-digit number that is different from the calling number, the display will show *SECURITY SCREEN* and the number the caller input.
- If the call is private or unavailable and the caller enters a ten-digit number outside of Qwest's territory, the display will read *SECURITY SCREEN* and the number the caller input.
- If the call is private or unavailable and the caller inputs one to nine digits (e.g. 2345), the display will read *SECURITY SCREEN* and the number the caller input backfilled with zeros (000-000-2345).

A caller who chooses not to unblock their line or enter a number will be advised that their call could not be completed and the call will be terminated.

(C)
(D)

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Selective Call Forwarding

Allows a customer to establish and modify a list of telephone numbers whereby calls originating from numbers on the list can be forwarded to a local or long distance number selected by the customer. All other calls will be handled normally. Selective Call Forwarding may be activated, deactivated, or changed by the customer.

(C)

Selective Call Waiting

Includes the Call Waiting or Call Waiting Identification functionality and, in addition, allows the customer to establish and modify a list of up to twenty-five telephone numbers that will trigger the Call Waiting tone when the customer's line is in use. Callers not on the list will receive a busy announcement if the called party is on the line or be forwarded to the customer's Voice Mail.

Speed Calling

Allows a customer to dial frequently called numbers by dialing a one or two digit code in place of the entire telephone number. Speed Calling lists are available in an 8 number or 30 number capacity and can include local and long distance telephone numbers. The lists may be established and changed by the customer.

5. EXCHANGE SERVICES

5.4 PREMIUM EXCHANGE SERVICES

5.4.3 CUSTOM CALLING SERVICES

A. Description (Cont'd)

Terminal Make Busy Key

This optional feature is used only with Uniform Call Distribution or Preferential List Hunt. Permits a terminal (line) or group of terminals (lines) to appear busy to incoming calls.

Three-Way Calling

Allows customers to add a third party to an existing telephone conversation by depressing the switchhook and dialing the third party's telephone number. When the third party answers the customer can conference all of the parties by depressing the switchhook, or speak with the third party privately. Three-Way calling is available on a pay per use basis or a monthly subscription basis.

Wireless Extension

A wireline forwarding service that works with a customer's wireless service. When a call is placed to the wireline number, it is automatically forwarded to a designated wireless number if the handset is turned on. If the wireless handset is turned off or is busy, the call rings at the wireline number and is not forwarded. In addition, any call coming from the designated wireless number to the wireline number will not be forwarded back to the wireless number. If the Wireless Extension customer has Voice Mail Service and the wireless handset is on, and the wireless handset is busy or the call is not answered, the customer can choose to have calls forwarded to the mailbox instead of the wireline number.

B. Terms and Conditions

1. Actual operation and performance of Custom Calling Services are subject to operational limitations and restrictions that exist in the equipment types, software releases, terms of interconnection with other networks, industry specification and the like. (C)
2. If available, Custom Calling Services can be furnished to individual line business and residence customers only.
3. Due to technical limitations, customers may not purchase the following on the same line: (C)
 - One-digit Abbreviated Access service and Speed Call 8.
 - Two-digit Abbreviated Access service and Speed Call 30.
 - More than one Abbreviated Access service. (C)
4. Control of the number assignment on the shared speed call list associated with Abbreviated Access resides with the provider. The provider must have an access line in the same central office as their client for the purpose of controlling the speed call list. The access line will be restricted from dialing any toll calls billable to the end user.
5. Due to technical limitations, customers who subscribe to Call Transfer and Speed Calling 8-number capacity will only have 6-number capacity available for their use.
6. The predetermined number associated with Hot Line Service cannot be changed except through the issuance of a service order.
7. A line equipped with Hot Line service can be used for incoming calls but, cannot place outgoing calls to any number other than the preprogrammed number. For example, calls to 911 or other emergency numbers cannot be placed from a line equipped with Hot Line service. (C)

5.4.3 CUSTOM CALLING SERVICES

B. Terms and Conditions (Cont'd)

8. Call Forwarding-Variable can be provided on business lines under the following conditions:
 - a. Multiple calls can be simultaneously forwarded outside the central office where technically feasible.
 - b. When a business utilizes a Multiline Hunt Group, only the first telephone can be forwarded. In addition, since any station on the system that has access to the central office line can change or remove the activation of Call Forwarding - Variable, the Company is not responsible for any changes to the call forwarded number.
 - c. When a business utilizes a Series Hunt Group, the Call Forwarding - Variable feature can be installed on each telephone number in the group. To activate the feature the station must access the line associated with the specific telephone number.
9. Operator Verification and Interrupt will not function on lines equipped with any of the Call Forwarding features.
10. Due to technical limitations, the calling number and the called number must be in the same central office switch for the following features: Directed Call Pick Up, Directed Call Pick Up with Barge-In, Distinctive Alert and Dial Call Waiting.
11. A telephone number must be assigned to lines equipped with Directed Call Pick Up, Directed Call Pick Up with Barge-In, Distinctive Alert and Dial Call Waiting.
12. Last Call Return, Continuous Redial and Three-Way Calling are available on a monthly subscription or pay per use basis. The pay per use basis pricing options will be available where facilities permit. For any month, the total usage billing will not exceed \$6.00 for each service, per line. Customers may request the removal of these services at any time, at no charge. During the first 30 days of availability to the customer, customers who invoke these pay per use services will not be charged.
13. Some of the features may be subscribed to separately or in a combination of several on the same line in a package rate.

B. Terms and Conditions (Cont'd)

14. A 60 Day Product Guarantee allows customers who are new subscribers of Remote Access Forwarding and Scheduled Forwarding, who are not completely satisfied with the product, to receive credit for all monies billed for the product. The customer must notify the Company of their dissatisfaction and request disconnection of the product within 60 days of the installation of the product. (T)
15. Recognizing the potential for misuse associated with Remote Access Forwarding and Scheduled Forwarding, the Company will attempt to verify that requests for this service are being made by the customer of record, not unauthorized parties. (T)

The following are restrictions to forwarding destinations for Remote Access Forwarding and Scheduled Forwarding:

- No International numbers - only United States NPAs allowed.
 - No 700, 800, 900, 950 or 976.
 - No N11 or 555-1212.
 - No operator assisted calls (0-, 0+, 00-, 00+, 01+, 10XXX+0, 10XXX+00, 10XXX+0+, 1-XXX+01+).
 - No speed dial codes or customized dialing plans.
 - No third-number billed calls.
 - A limit of four (4) destination changes per hour.
16. Caller Identification - Number and Caller Identification - Name and Number may not be available to all customers due to technical limitations. (T)(M)
17. *I-CALLED* service has blocking capabilities. Customers may block originating and/or terminating *I-CALLED* calls. If a customer places an *I-CALLED* call to a blocked number, there will be no charge. (T)
18. *I-CALLED* is not available on the following types of originating services: (T)
- Centrex type services;
 - Public Telephone service;
 - PBX trunks;
 - Cellular;
 - Operator assisted. (M)

19. *I-CALLED* is not available on calls to special access numbers, including but not limited to: 800, 888, 900, 976 and N11. (M)
(T)
20. *I-CALLED* is limited to certain technologies. In addition, in order for the service to work, the calling party and the called party must either be served from the same central office or served from central offices which are linked by facilities that can send the recorded name and telephone number. *I-CALLED* will only work on intraLATA calls. (T)
21. Where any Custom Calling Service is provided on a Measured Service line, usage charges as specified in 5.2.1, preceding, will apply to all calls placed by such features, including, but not limited to, those using Call Forwarding features, Call Transfer, Continuous Redial, Last Call Return, and Three-Way Calling. (N)
22. Where any Custom Calling feature causes or permits a call to be placed to a telephone number out of the local calling area, all toll charges will apply at the rates and terms established by the interexchange carrier providing the facilities to carry the call.
23. Custom Calling Services will be provided where technically and/or economically feasible and are furnished only from central office areas where facilities permit, as determined by the Company. Features may work only within the local calling area, where all central offices that handle the call and all exchanges through which a call is routed are equipped with the necessary technology and compatible signaling and other interconnection agreements with non-Company providers exist. Without limiting the foregoing, these services are subject to, but not limited to, operational limitations and restrictions in equipment types, software releases, terms of interconnection with other networks and industry specifications.
24. Customer's subscribing to Call Waiting Identification, *CALLER ID WITH PRIVACY* +, Caller Identification - Name and Number and Caller Identification - Number must have a properly connected and operating Caller ID Unit. (N)
