
7. PRIVATE LINE SERVICE OFFERINGS

A. General

1. A service for communications between specified locations for a continuous period or for regularly recurring periods at stated hours. Facilities for communication between two or more designated points are set aside for the exclusive use or availability for use of a particular customer or authorized users.
2. All services are provisioned in conjunction with the corresponding interstate service, and intrastate service is not available separately from the corresponding interstate service.
3. All of these services are governed by the terms, conditions, discounts and provisions specified in the applicable Service Agreements, the Qwest Rates and Services Schedule and this Rate Schedule No. 1.
4. Private Line Services require that a customer sign a term commitment.

B. Types of Contractual Agreements Offered

- Qwest Total Advantage (QTA) – A suite of services targeted to large businesses.
- Qwest Total Advantage Express (QTA Express) – A mid-market product whose target market requires only long distance service.
- Qwest Connect – A suite of services targeted to businesses billing a minimum of \$5,000 to \$15,000 a month.
- Qwest Express – Offers a suite of telecommunication services to non-telecommunications carrier customers operating within the wholesale market with special rates on an individual contract basis, which is available on a one, two, or three-year term commitment.
- Qwest Loyal Advantage (QLA) – A suite of services targeted to government entities.
- MiCTA – A suite of services targeted to government entities.

7. PRIVATE LINE SERVICE OFFERINGS

C. Private Line Service

1. General Description

- a. Qwest's domestic Private Line Service is a point-to-point physical link between two Company Points of Presence (POP) located on the Qwest domestic network. The link provides interLATA dedicated non-switched electrical and/or optical transmission.
- b. The service provides a fixed capacity of bandwidth for transport of the customer's digital communications traffic. The service uses and conforms to Synchronous Optical Network standards that originate and terminate a physical connection at a specified Company demarcation point located in the Qwest POP (QPOP). Service extends to and includes the equipment maintained by the Company at the Company network interface points located in the QPOP.
- c. Private Line transmission speeds range from the DS0 level up to and including OCN speeds. Circuits at DS0, DS1, and Fractional DS1 up to 512 kbps, DS3, OC3, OC12 and OC48 levels may be available between any two POP locations within the state. Provision of Private Line circuits are subject to facilities and capacity availability.
