2. Description of Charges

a. Usage Charges

- Usage charges vary depending upon a combination of factors including; the time of day a call is placed, the distance between the calling and the called party, the duration of the call, and the network facilities over which the call was placed. Calls beginning in one rate period and ending in another will be billed at the rate applicable to each portion of the call.
- Chargeable time begins when the Company receives signaling to detect that the network connection between the calling party and the called party has been established. Chargeable time ends when either party "hangs up" thereby releasing the network connection. Unless otherwise specified, residential calls are measured and billed for an initial period of 60 seconds and timed in 60-second increments. Fractional minutes of use are rounded up to the next full minute.
- Unless otherwise specified, business calls are measured and billed for an initial period of 30 seconds and timed in 6-second increments for usage over 30 seconds. The call rating is rounded to the nearest full cent. Rate quotes are provided in 60 second increments.

b. Monthly Recurring Charges

Monthly Recurring Charges are fixed fees applicable to certain service offerings set forth herein. Such charges vary depending upon the physical requirements of the customer and the characteristics of the service arrangement utilized by the customer. Monthly recurring charges for dedicated access arrangements may include an amount charged by a local access provider. Customers may elect to be billed directly for local access facilities.

c. Volume Discounts

Customers whose total monthly usage equals or exceeds a minimum level may be eligible for a volume discount. The amount of the discount is generally based upon the customer's total monthly usage charges for all services; such usage may be measured for each rate period over all access lines in a service group. The Company reserves the right to discontinue Volume Discounts to customers who are delinquent in payment for services provided by the Company. Volume discounts are not applicable to monthly recurring charges, installation charges, fees for special features and functions, administrative or physical change charges, or minimum monthly usage charges.

d. Minimum Monthly Usage Charges

Customers may be required to maintain a minimum usage level in order to receive discounted rates and charges. Unless otherwise specified, minimum usage charges are billed in advance and are not subject to volume or time-of-day discounts.

e. Installation Charges

Installation charges are applicable to certain service options requiring the physical connection of lines, ports, equipment, or other facilities. Such charges may also be assessed for changes in the service arrangement for the addition or adjustment to lines, ports, equipment, or other facility necessary to provide the service required by the customer.
